

HMIS Workgroup

11/20/2024 2:00pm

Location: Olsrud Center, ACCESS, 3630 Aviation Way, Medford + Remote Zoom

AGENDA

- **Roll Call**

- Tanner – 5 min

- **Announcements – Full membership required training**

- Tanner/Debbie – 5 min

- **Data Quality Plan Feedback**

- Tanner/Debbie – 20 min

As we continue to better implement our data quality plan within the CoC, we would like user feedback on that process. This can be a time to clarify any questions and better communicate expectations for data quality.

- **LSA General Knowledge Training**

- Debbie – 30 min

The LSA is an annual report sent to HUD that uses HMIS data. This discussion/training will be to give HMIS users a general understanding of what the LSA is and how it uses the data being input into HMIS. We hope this gives a better understanding of why data quality is so important, and how it can lead to positive growth within the CoC.

- **Discussion** – Open discussion time to go over any remaining questions or comments from the meeting.

- **Adjourn**

- Tanner

Next Meeting: December 18th, 2024
